

Tecnometal

PCB PRODUCTION & PROTOTYPING SERVICES

YES, WE DO IT
FASTER & BETTER ...

... AND MORE!

No words, just quality!

www.tecnometal.net

For more than 25 years we've been working as Italian producers, manufacturing and supplying printed circuit boards (PCBs) and prototyping services (PCB & PCBA) across all sectors of the electronics industry.

At the centre of our corporate policy are placed quality, flexibility, timeliness, full compliance with the agreed delivery terms and the sharing with our customer of the overall order processing.

Rounding out our offer is the mass-production optimized and realized thanks to the long standing partnership with selected international manufacturers, qualified and directly managed by our Shenzhen branch.

ONE PARTNER ONE SERVICE

A fast, reliable, scrupulous, flexible and punctual Service. An exclusive partner ready to take on and share your project with a single purpose: achieve the goal.

From the simple idea to the design solution, from the file receipt to the equipment rigorous preparation, from the prototype manufacture to the mass production, from the logistics to the training.

We have just a mission

OUR CUSTOMER SUCCESS

The customer can choose the type of service and support according to his needs.

The range of services offered is tested to ensure the customer expectations at all levels.

*"Everyday experience
is essential to enhance our sense of
responsibility taking from criticism
and suggestions the valuable helps
in order to increase and refine our
knowledges, expertise and skills,
thus improving
our customer' satisfaction"*

An accurate organization of work and technological equipment supported by continuous investments in installations and processes innovation, provide an important strenght of the Tecnometal production.

Types:

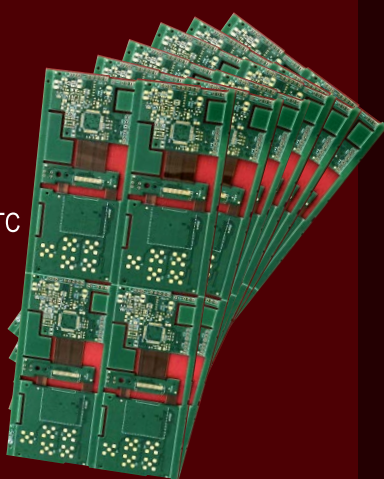

single-layer
double-layers
multi-layers
flexible
rigid-flexible

Basic materials:

CEM
FR-4
Aluminium / IMS / HTC
Teflon / PTFE

Technologies:

fine-line
micro-holes
blind holes
burried holes
HDI
capped VIAS
VIAS in Pad
impedance controlled/Test Coupon

Tecnometal has been engaged for many years with italian and international partners in the training and travelling events called **T-Day**.

T-day is open to all the people wishing to be updated on the last news regarding materials, processes and technologies.
